

## **Wedding Photography**

**Because each moment of a wedding is unique and special, we try to capture every aspect from the laughs and tears to the playful and emotional moments. Depending on the clients wishes, Creations can produce black and white, color, and special effects. Our photographic services vary from the small, intimate affairs to the large, full-scale weddings. We take a personal interest in getting to know the bride and groom as well as their families. We get involved in the event and their experiences making the day even more enjoyable. The photographer you choose will be with you for most of your wedding day so it is very important that you feel comfortable with your photographer. We always take steps to ensure that your special day goes by as smoothly as possible. Because we care about our clients, we want to help make this the most unforgettable special day of your life.**
